

Caprin Low Duration Taxable Bond

QUARTERLY FACT SHEET AS OF 3/31/2017

Investment Philosophy

Caprin believes that knowledge preserves wealth and that prudent investment decisions are best made from a consistently applied process honed by experience gained through a variety of market cycles. Accordingly, Caprin's investment philosophy - Capital Preservation and Income, which serves as the foundation of the firm's name - is a direct result of exactly that experience. Filtered through these ideals, Caprin applies a conservative approach to a conservative asset class taking measured risks to improve income and returns as appropriate given low- to intermediate-risk mandates.

Investment Strategy

This strategy is designed for high-net-worth investors, institutional investors, endowments, foundations and corporations seeking additional income while providing a source for anticipated or event-driven needs. Accounts in this strategy favor income generation and liquidity more than total return and use investment grade corporate bonds, U.S. agency bonds and taxable or tax exempt municipal bonds to preserve wealth, lower risk and minimize volatility.

Individualized Investment Strategy Solutions

This strategy may be Wrap and/or Dual Contract based on Sponsor firm and/or Platform. Minimum Account Sizes and Fees also differ based on your platform option and solution chosen.

Std Dev 3 Yr (Qtr-End)	0.61
Sharpe Ratio 3 Yr (Qtr-End)	1.50
Information Ratio 3 Yr (Qtr-End)	-0.65

Portfolio Construction

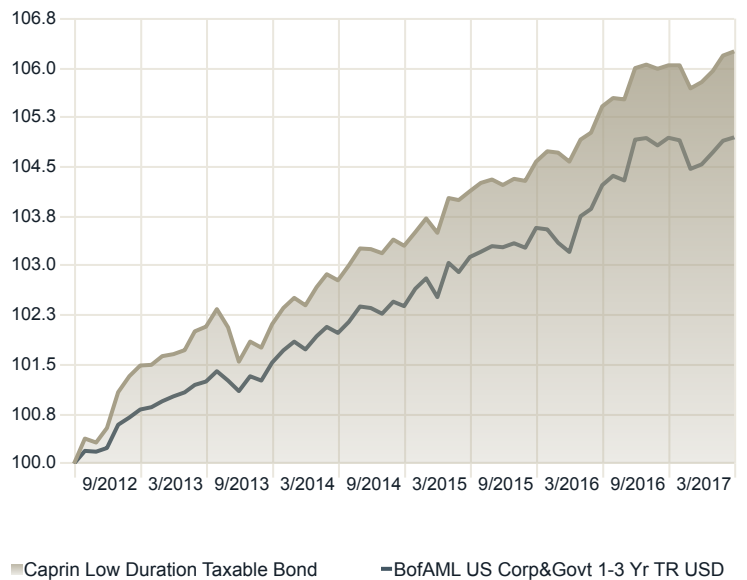

In positioning portfolios with the desired exposure to interest rate risk and sector/variable mix, Caprin looks to build portfolios using individual bonds and ETFs that represent the desired value and performance opportunity within each opportunity set. Caprin's Intermediate Strategies generally target a 75%/25% mix of individual bonds and ETFs, respectively. Caprin's shorter duration/maturity strategies will generally have a target of 100% in individual bonds, while the firm's ETF strategies will seek 100% in ETFs. Desired purchases and sales in specific portfolios are identified by duration and preferred sector, coupon, quality, state of issuance, and call features. Traders strive for the ideal and work closely with the portfolio team to capture opportunities that arise. Traders and portfolio managers work together in evaluating each opportunity incorporating both third party research and internal analysis. We compare financial metrics, demographic trends and outlooks to alternative investment opportunities. Caprin has developed research models that compare financial strength and risks across issuers. Appropriate securities with favorable value relative to risk are selected for purchase. When appropriate, we favor block trades to secure the best price and to ensure implementation of our best ideas across the maximum number of accounts. Recognizing the market is dynamic, traders and portfolio managers are poised to respond to changing conditions that warrant a reevaluation of desired trades. As such, ongoing communication ensures our team and our process is responsive, and that all client portfolios benefit from our current best thinking.

Performance Disclosure

Past performance is not indicative of future results. Composite performance results are based on qualifying, US domiciled, fully-discretionary accounts under management, including terminated accounts. To obtain a copy of a fully GIPS compliant presentation, please contact Caprin at Caprin@caprinbonds.com. The Low Duration Taxable Bond Composite contains all fully discretionary taxable bond accounts carrying low duration taxable portfolio investment guidelines with a primary emphasis on yield. Portfolios are invested in US Taxable bonds whose characteristics are consistent with the composite objectives.

Caprin Asset Management, LLC. claims compliance with the Global Investment Performance Standards (GIPS®) and has been independently verified for the periods 3/31/97 through 12/31/16. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Low Duration Taxable Bond Composite has been examined for the periods July 1, 2005 through December 31, 2016. The verification and performance examination reports are available upon request.

Caprin Asset Management, LLC (hereinafter "Caprin") is an independent registered investment adviser. Caprin, founded in 1996 in Richmond, Virginia, provides fixed income portfolio management services to individuals, family offices, corporations, endowments, foundations and governmental entities. Caprin, which is employee owned, is an independent, autonomous investment management organization providing advisory services on a separate account and sub-advisory basis. This performance disclosure statement applies to Caprin, as just defined, and encompasses all fee-paying, discretionary portfolios managed by Caprin and aggregated into performance composites as further described herein. A listing and description of Caprin's performance composites is available upon request.

Composite performance results are based on qualifying, US domiciled, fully-discretionary accounts under management, including accounts no longer with the firm. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using actual management fees. Please contact compliance@caprinbonds.com for a fully GIPS Compliant presentation. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Nothing in this report should be construed as an investment recommendation or guarantee of the ongoing success of this strategy. An investment in this strategy is not guaranteed and may lose money. This composite was created 6/30/05.
